5. *Working of the Sudder and Branch Committee.*—There were three meetings of the Sudder Committee, during the past cess half-year: in two, there was a quorum, and in the other not.

In the Buxar Branch Committee two meetings were held, and in each there was a quorum.

In the Sasseram Branch Committee one meeting was held, in which sufficient number of members attended.

In the Bhabuah Branch Committee there were no meetings during the cess half-year under report.

* * * * *

6. *Audit of Monthly Accounts.*—The monthly accounts were regularly audited by a standing Sub-Committee, formed under section 174 of the Cess Act, before they were submitted to the Accountant-General, Bengal.

7. *Inspection of Accounts.*—The accounts and registers of the Shahabad Road Cess Committee and of the District Engineer, up to 31st March 1887, were duly examined by the Audit Department, and it is recorded by the Examiner of Local Accounts, Bengal, "that all the books and registers in the office of the Committee and that of the District Engineer are in good order and up to date."

How the different establishments worked during the half-year.—The Chairman's office has been reported by the Audit Committee to have worked satisfactorily during the cess half-year under report.

The District Engineer continues as heretofore to render excellent service, and he enjoys the full confidence of the Board.

The establishment under the District Engineer has worked satisfactorily.

8. *State of the road.*—The annual superficial repairs of the roads under the District Committee were all promptly executed immediately after the cessation of the rains, and the roads in general were opened to cold weather traffic early in the season.

9. *Original Works.*—The original works executed during the half-year amount to Rs. 11,692 and are chiefly as follows:—

I.—Bridging and metalling Ohupra Ghat-Arrah road, No. 5, class I and II, sanctioned in Bengal Government's No. 425L.C., dated 24th February 1885, and the Commissioner's No. 79G., dated 4th March 1885. The total expenditure up date is Rs. 45,681 against the estimated cost of Rs. 51,987, leaving a balance of Rs. 6,276 for work remaining to be done, for which Rs. 5,819 have been allotted in the current year's budget. More than $\frac{1}{10}$ of the entire project has been completed, leaving only one mile to be laid and consolidated, which is provided for in the current year's budget.

The bridge across the Sawri nuddée has been opened to traffic, and the remaining mile of metalling will be completed in due course during the coming rains.

II.—Raising and bridging Nasrigunge-Tendoori road, portion of Nasrigunge-Doomraon road, No. 2, class I and II, sanctioned in Bengal Government's No. 165 L.O., dated 2nd June 1887, and Commissioner's No. 179G, dated 17th June 1887. The total expenditure up to date is Rs. 2,468 against the estimated amount of Rs. 50,172; more than one-fourth of the earthwork has been completed. The required materials for construction of culverts are almost ready. The budget allotment of Rs. 16,000 for the current year will be worked up to in due course.

III.—Metalling operation of Peero-Beheea road, No. 8, class II, sanctioned in Bengal Government's No. 290, dated 5th July 1886, and Commissioner's No. 234G, dated 22nd July 1886. The expenditure up to date amounts to Rs. 5,184 against the estimated amount of Rs. 17,193. The budget allotment for the season being Rs. 5,482 against the corresponding expenditure of Rs. 2,642, more than half of the collection of kunker completed. The work has so far been executed and very well done, under the direct superintendence of Messrs. Burrows, Thompson, and Mylne of Beheea, but these gentlemen fixed the system of work adopted in the district, viz., that of dealing directly with the working people, as petty contractors or piece-workers, so as to intercept for the benefit of the fund, the profit that would otherwise go to a regular contractor, so troublesome that they state they are unable to devote the necessary time to the work and have requested to be relieved of it.

The supply of kunker within the economical distance of carriage provided in the estimates, is very limited, and the progress must necessarily be slow, but every endeavour will be made to push on the work.

Village roads.—Comprising 54 miles with rustic bridges have been duly maintained at the cost of Rs. 514 against Rs. 650 of estimate.

Arboriculture.—One hundred and thirty miles of road recently planted with selected fruit and other useful trees have been well maintained within the cost provided in the estimate.

M. WASIRRUDDIN,

Vice-Chairman, District Board.

No. 386, dated Durbhunga, the 31st August 1887.

From—H. S. BRADON, Esq., Chairman District Board, Durbhunga,
To—The Commissioner of the Patna Division.

With reference to your memorandum, Circular No. 203G. of the 31st May last, I have the honour to submit the following report on the working of the late District Road Cess Committee during the half year ending 31st March 1887 :—

COMMITTEE.

District Committee—Only three meetings of the Committee were held during the half-year under report. This was chiefly owing to the camping season, and the changes that took place in the office of the Chairman during the period in question. Mr. Price was transferred in January, and was succeeded by Mr. O'Doyley who again left the district in February, and was succeeded by me.

* * * *

Branch Committee—There were two Branch Committees one in each of the two subdivisions, Madhubani and Tajpur.

The former held two meetings, and the latter only one during the half-year under report.

The work of these Branch Committees chiefly consisted in the execution of repairs to village roads for which a sum of Rs. 15,500 was provided in the budget. The Branch Committees spent Rs. 13,235-11-2 out of this amount.

INCOME.

The income of the Committee chiefly consisted of the cess on lands.

The total demand of the half-year under this head was Rs. 1,22,486 and as there was an arrear balance of Rs. 43,987, the total realizable demand of the half-year amounted to Rs. 1,66,473. of this Rs. 14,685 had been already realized in advance in the previous year, and Rs. 97,315 realized during the half-year, and Rs. 250 remitted, leaving an unrealized balance of Rs. 54,223. The percentage of collections was Rs. 90.06 against 86.6 of the previous year.

EXPENDITURE.

Original Works—The budget estimates were at first prepared according to the cess year (October 1886, to September 1887), and a large number of masonry bridges and culverts besides 2½ miles of road metalling were provided for in the budget, but as Local Self-Government was introduced into the district from 1st April, the bridges and culverts, &c., mentioned above could not be finished within March, with the exception of one culvert on the Phulparas-Ghaugheria road, and six culverts on the Gaighat-Ujiarpur road. The remaining works have been re-provided for in the budget of the current year, and as the materials required for them have been already collected, as reported by the District Engineer, it is expected that they will be finished before next March.

Repairs.—There were 75½ miles of District Roads in 1885-86; but 105 miles were added to the list during the half-year under report, making up a total of 859 miles. Of this, 156 miles were repaired through the agency of the planters and members of the Committee, the remaining 703 miles being looked after by the District Engineer himself.

Besides the usual surface and bridge repairs of the roads, the following important works were executed during the half-year under this head:—

- (1.) Nine new wooden bridges were constructed.
- (2.) Fifteen wooden bridges were thoroughly repaired.
- (3.) Petty repairs were done to 17 wooden bridges.
- (4.) Eight miles of pucca roads were repaired with jhama metal.
- (5.) Petty repairs done to 36 pucca culverts.
- (6.) Six timber topped bridges were arched over.
- (7.) Pucca faces and parapets built to 4 pipe drains.
- (8.) The roadway in 22 bridges were metalled.
- (9.) The platform of the Kakerghattia iron bridge was renewed with teak-wood planks.
- (10.) Parapets of 10 pucca bridges were either re-constructed or repaired.
- (11.) Protective works were executed to the abutments of the Beehul iron bridge.

The state of the roads as far as the earthwork repairs were concerned was satisfactory; but the crying want on most of the roads, except a few main roads of the district, was masonry bridges. Great attention is, however, being paid to this subject during the current year. Besides the heavy allotments for the two iron bridges on the river Bagmatti close to the town of Durbhunga, which had been seriously damaged during the floods of last year, a sum of Rs. 61,268 has been provided in the budget of the current year for the construction of 97 new culverts and bridges.

These bridges are scattered all over the district, and have been proposed with special reference to the immediate requirements of the localities concerned, but in future it is intended to take up the several roads one by one in order of importance, and gradually finish the bridges required on them.

No. 243, dated Mozufferpore, the 4th August 1887.

From—T. NORMAN, Esq, Chairman, District Road Cess Committee, Mozufferpore,
To—The Commissioner of the Patna Division.

I HAVE the honour to submit the following report on the administration of the District Road Fund of this district for the half-year from the 1st October 1886 to 31st March 1887, together with the accounts in duplicate of the receipts and expenditure of the fund for the period :—

Committees.—The District Committee worked well and the members displayed considerable interest in the questions that were brought before them. The Sub-Committees appointed for audit, though not always regular, discharged the duties entrusted to them creditably, and to the best of their abilities. The members of the Branch Committees of Sitamurhee and Hajipore also are reported to have taken interest in the administration of the funds at their disposal.

Accounts.—The half-yearly account has been audited by the standing Sub-Committee of audit at their meeting, held on the 22nd July 1887, under the provision of section 179 of the Cess Act IX (B.O.). The monthly accounts for every month of the half-year under report duly audited by the said Committee, were submitted to the Accountant-General, Bengal, and the work of the Committee in connection with the keeping of accounts has been performed with great care and regularity.

The Improvement and Maintenance of District Communications.—The District Engineer reports as follows :—

1. *Original works.*—With the exception of the improvement of the Pupri road No. 34, (the earthwork for which was sanctioned by a letter from the Commissioner of the Patna Division, No. 301G, dated 2nd November last) no new works have been started in the half-year under review. Satisfactory progress, in as far as funds permitted, has however been made in the works previously undertaken, viz., the improvement of the Kurlahya Ghât and Huzrut Jandaha roads, the construction of a timber bridge over the Bur-Gunduck river at Akhara Ghât, over the Kedana river at Sonbursa Ghât on the Shahpore Road No. 5 and of a new road from Barharwa to Byrugnia.

2. "The minor works under this head have progressed satisfactorily, and may reasonably be expected to be completed before the rainy season sets in.

3. "*The General State of Communications.*—Owing to the abnormal high floods in the Bagmati and Bur-Gunduck rivers during the last rainy season, many of the roads were extensively breached and rendered impassable for traffic. The damages were, however, as far as possible, repaired, and the roads opened to traffic as soon as floods subsided.

4. "The roads in the Committee's list, aggregating 141 in number and 1,465½ miles in length, were for the most part repaired satisfactorily during the year. I have had to call special attention to the manner in which several of the roads in the Sitamurhee sub-division under the direct charge of the Branch Committee were repaired, and it is to be hoped that this will have a salutary effect.

5. "The subject of encroachments on the lands belonging to the roads is a very serious one and deserving of special attention. Offences under this head are visibly increasing, the punishments awarded on conviction of the offenders being, in my opinion, insufficient to act as a deterrent. In 27 convicted cases in the Sudder sub-division alone, the average fine only amounting to Rs. 2-11 per case. Many of them being as low as eight annas, it frequently pays the offenders to cultivate crops on lands belonging to the roads, as the fines inflicted are less than the rent which would have to be paid for an equal quantity of land, when in addition to this, there is a chance of cases not being instituted against them (as it would be obviously impossible to take notice of all and every offence in a large district like this), and also that the prosecution may break down on trial from some reason or other, it is obviously in the interests of the cultivators to encroach as much as possible.

"*Arboriculture.*—The system of planting trees on the sides of the district roads has been discontinued, it having been found to be an expensive, unremunerative and deleterious one. In addition to the damage done to the roads by the drip from the foliage during the rains, much of the moisture which would otherwise serve to consolidate the roadway is absorbed by the roots of the trees at the very time when it is most required. The trees already planted are generally in good condition, but many of them will have to be cut down before many years have lapsed, the hopes entertained that they would prove remunerative have been dispelled, owing, in my opinion chiefly to the fact that unless the roots of fruit trees are freely opened up, and the surrounding ground cultivated (which would obviously be impossible on the road), the yield of fruit is infinitesimal."

Establishment.—The District Engineer has performed his duties with skill and assiduity and the different establishments under the District Road Committee have worked well and satisfactorily.

ALI MIRZA,
Member, D. R. Committee.

RAM DHANU SAHAY,
Vice-Chairman, D. R. Committee.

No. 1321, dated Chupra, the 9th August 1887.

From—J. A. BOURDILLON, Esq., Chairman, District Board, Sarun,

To—The Commissioner of the Patna Division.

I HAVE the honour to forward herewith detailed account of receipts and expenditure of the District Board Fund from 1st October 1886 to 1st April 1887, and a report on the administration of the fund during that period, submitted by the Vice-Chairman.

Dated Chupra, the August 1887.

From—BABOO R. A. NARAYAN SINGH, Vice-Chairman, late District Road Committee, Sarun,

To—The Chairman, District Board, Sarun.

I HAVE the honour to submit the following report on the administration of the Road Fund of this district from 1st October 1886 to 1st April 1887, together with detailed accounts of the receipts and expenditure. I have delayed the submission of these accounts as I had intended to lay them for audit before the Finance Committee to be formed under the Local Self-Government Act. But as the District Board has not yet been formed, I consider further delay unnecessary.

2. The Local Self-Government Act having been introduced in this district from 1st April last, the accounts of the late District Road Committee were closed on that date, and their cash balance was transferred to the credit of the District Board.

3. The Sub-Committee of audit having ceased to exist from 1st April 1887, and no Finance Committee being formed yet under the Local Self-Government Act, the accounts could not be audited. The monthly accounts from which the accompanying accounts have been compiled were duly audited by the late Sub-Committee of audit.

4. The original works and repairs in the Sewan sub-division were up to 31st March last executed by the Sewan Branch Committee, and those in the Gopalgunge sub-division, excepting original works on the main roads, were executed by the Gopalgunge Branch Committee.

5. Repairs to most of the unmetalled roads were completed, and kunkur was being collected for the repairs of metalled roads. Several original works were also in progress, such as construction of bridges and improvement of roads.

6. The improvement and repairs of village communications were also in progress. Advances were made to Managers of factories and native gentlemen to carry on these works.

7. Nothing was done under the head of tree plantation, as the operation is taken in hand in the rainy season. But the nurseries were kept supplied with fruit-bearing trees, such as mangoes, jamun, &c.

* * * * *

9. The office establishment did excellent work. The Head Assistant and Accountant Baboo Taruk Nath Dutt, deserves favourable mention.

Notes to accompany the accounts for the period from 1st October 1886 to 1st April 1887.

1. *District Board.*—The heading "District Board" has been opened on the receipt and expenditure side of the accounts under Accountant-General's No. 971LF, dated 25th March 1887, for transferring the balances of the cash book and of the advance and deposit accounts to the District Board.

2. *Revised Budget.*—The figures of the revised budget returned with Commissioner's No. 109G, dated 13th April 1887, have been shown under the heading "Amount as per budget estimate" both in the schedule of receipts and expenditure.

3. *Refund of cess.*—Rupees 133-14-3 represent remission of cess in respect of Government estate Bungra, pergunnah Chowbar, which was over-assessed. This remission was sanctioned in Board's No. 822, dated 17th November 1886.

4. *Original Works and Repairs.*—The works which do not show any expenditure have all been provided for in the District Board's Budget for 1887-88, and most of them have since been put in hand.

5. The balance at credit of the late District Committee on the 31st March 1887 was transferred to the credit of the District Board on the 1st April following. Hence there is no cash book balance left.

R. A. NARAYAN SINGH,

Vice-Chairman.

Rule 2.—Meetings shall be either ordinary or special.

Rule 3.—An ordinary meeting of the Local Board shall be held on the last Saturday of every month, provided that, if the last Saturday of any month falls on a gazetted holiday, or if for any other reason it is deemed inconvenient, the Chairman may fix another day for the ordinary meeting of the Board.

Rule 4.—A special meeting of the Local Board may be called at any time by the Chairman. The Chairman shall be bound to call a special meeting on a requisition signed by one-third of the total number of members.

Rule 5.—The subjects referred to in rule 65 of Part IV of the General Rules, and in section 29 of the Act, shall be dealt with at special meetings only.

Rule 6.—All other subjects which come within the province of the Local Board may be dealt with at either ordinary or special meetings.

Rule 7.—Meetings shall be held at the office of the Local Board, or at such a place as the Chairman may from time to time determine on sufficient grounds to be recorded by him.

Rule 8.—The notice under rule 67 of the General Rules shall be sent by post or by person as may seem convenient. But when allotments for original works and repairs are made, in addition to the notices to the members, notices should be posted in the office of the Local Board, and also in the public offices in the sub-division, for the information of the public, so that they may send applications in time for the consideration of the Local Board.

(b).—Business postponed from the last ordinary meeting shall be considered.

(c).—A progress report of works shall be laid before the Board.

(d).—Letters and reports of Committees shall be read, and accounts and statements shall be considered and passed.

PUBLIC WORKS DEPARTMENT,—BENGAL.

DISTRICT ROAD FUND.

NOTIFICATION—No. 331.

The 25th September 1888.

THE subjoined annual accounts and report of the Road Cess Committee of the district of the Sonthal Pergunnahs for the year 1887-88, together with the remarks thereon of the Commissioner of the Bhagulpore Division, are published for general information.

W. CONNAN,

Offg. Under-Secy. to the Govt. of Bengal, P. W. Dept.

No. 59P.W., dated Dumka, the 11th July 1888.

From—R. CARSTAIRS, Esq., Deputy Commissioner, Sonthal Pergunnahs,
To—The Commissioner of the Bhagulpore Division and Sonthal Pergunnahs.

I HAVE the honour to submit my annual report on the working of road works in Sonthalia for the year ending 31st March last.

2. Sonthal Pergunnahs is a non-cess district. The Local Self-Government Act has not been brought in force here, and this accounts for there being no District Board. Its power, however, in respect to district works is exercised by myself.

3. Original works done during the year are as follow:—

- (a) Construction of a bund across the Ranibahal stream, 86th mile, road No. 1, Bhagulpore and Suri road, and provision of escape bridges and channels at both ends.
- (b) Construction of a stone causeway about 150 feet long across the Bilkee stream, 89th mile, Bhagulpore and Suri road.
- (c) Bunding up Massoujere stream, 83rd mile, Bhagulpore and Suri Road, and providing escape bridges and channels at both ends.
- (d) Construction of a bund across the Huripur nala, 28th mile, road No. 2, Dumka and Rampur Hât road, comparatively a more considerable stream, with escape bridges and channels at both ends.
- (e) Dismantling a timber bridge over the Jumna-jore stream, 1st mile, Deoghur to Saruth road, superstructure thereof being replaced by four rubble arches of 15 feet span, and doing masonry parapets and other requisites.

4. We have been able hitherto to do a few original works every year, but with yearly increase to length of our roads, this is no longer possible. We want a series of masonry bridges. We want many new roads. A decent maintenance of our roads, nearly 700 miles, takes up almost all our limited money, and we are at a loss what to do in respect of many urgent works of construction and improvement. Economy we have effected to its utmost stretch, and no more is possible. We could do more with an income of Rs. 50,000. It is to be borne in mind that Sonthalia is one of the largest districts in Bengal, and our income of Rs. 34,000 a year is not enough, especially as increasing of maintenance traffic adds to the cost.

5. *Repair Works.*—We have been able to keep somehow in fairly good repairs almost all the roads borne in the district list. But the work is rough and necessarily unequal, depending on the soil. In the alluvial land to the east, it is bad. During the year the roads from Dumka to Pakour, Dumka to Jamtara *via* Kundahit, and Dumka to Madhupur *via* Saruth, have been partially improved. These, however, want much more done to them before they are passable all the year round. The three village roads in the district have been kept in fairly good condition. The zemindar of Belpatta, as before, kept the road to Kumirabad in order.

6. Staging and inspection bungalows underwent partial repairs, which was all we could afford. They require many improvements, but funds always fail.

7. Arboriculture has been as before carefully attended to. Our road-side plants which we began regularly planting in some eight years ago, now amount to about 28,000, mostly mango. Many of them flowered during the year, and some bore fruits. We shall not, I fear, be able to extend further our plantations on account of shortness of funds.

8. The work of the staff has been fair, except that of the Sub-Overseer of Borio, which was not good. The District Engineer, Baboo A. K. Mittra, has, as before, been energetic and capable. I think, however, he has been tempted to stretch economy too far and to undertake more than he could perform.
